### #StopGangStalking

It is not ethical to create a secretive governmental system of targeting individuals with absolutely no way to stop the abuse. This destruction in the wake is a chaos massively destroying the lives of those identified as Targeted Individuals of GangStalking.

We must begin to have a conversation....

Doctor Lorraine Sheridan,

I have previously attempted to email and got no response.

In these matters, a silence vast -- a silent shunned --- a silence everlasting,

Is killing human beings --

as Mark Twain once wrote:

"Truth Hurts but Silence Kills"

We cannot proceed as though we do not know.

It is obvious now -- it is self-evident now.

The world is under siege by the conditions that you have researched -- known as Gang Stalking.

I am not going to let you off the hook so easily.

That it looks like your focus --- in true essence -- intersects these subjects --- 🧠

but you can not ghost an imperative need to have a conversation about these concerns with me.

I am very serious Doctor Sheridan,

You cannot ghost the need to hold ourselves into a conversation.

This term can apply to any situation where there is a common bond of connection and one person

refuses to respond a response of responsibility --- not that you have responsibility for the madness,

but in human conscience terms -

You have more of a duty of common need here than just throw some effort at research and then be able to walk away. Not only that, but your 2015 position that you stated is used to create an entire social nightmare of "FAKE LIFE DYNAMICS" of agnotology. I will not let you off the hook Doctor.

You cannot just now change to focus on something out to crazy crazy.

YOU CANNOT GHOST THIS CONVERSATION --- I will be your haunting.

Please Respond ---

A level of impasse not imagined by you when you first placed 100% of the covered narratives of gang stalking as delusional in 2015.

## Complaints of group-stalking ('gang-stalking'): an exploratory study of their nature and impact on complainants

### Abstract

Stalking primarily concerns the actions of individuals. However, some victims report stalking by organised groups, this being known as 'group-' or 'gang-stalking'. This phenomenon has not been subject to systematic study. An anonymous questionnaire was completed online by self-defined victims of stalking. One thousand and forty respondents met research definitions for stalking, of which 128 (12.3%) reported group-stalking. One hundred and twenty-eight individually stalked cases were randomly selected as a comparison group. All cases of reported group-stalking were found likely to be delusional, compared with 3.9% of individually stalked cases. There were highly significant differences between the two groups on most parameters examined. The group-stalked scored more highly on depressive symptoms, post-traumatic symptomatology and adverse impact on social and occupational functioning. Group-stalking appears to be delusional in basis, but complainants suffer marked psychological and practical sequelae. This is important in assessment of risk in stalking cases, early referral to psychiatric services and allocation of police resources.

What I have found is disturbing and unnatural --- quite unfathomable here in the United States of America.

and what you said in 2015, is somewhat irrational to consider the possibilities that are actually in the human condition of conflict and these kinds of human activities. A loss of critical thinking to be so wrong in this analysis of your 2015 findings.

What has developed here in the hate based cultures that have gotten a grip on the nation of the United States.

There are no consulates to turn to to offer some kind of thought and human consideration for resolutions.

I have attempted in and out of any and all levels of civil society that I could think of. The remaining outcome is conclusively,

## There are no consulates!!

"It is not ethical to create a secretive governmental system of targeting individuals with absolutely no way to stop the abuse. This destruction in the wake is a chaos massively destroying the lives of those identified as Targeted Individuals of GangStalking.

FOREVERMORE CRUEL AND UNUSUAL PUNISHMENT!

What is defined as #BloodComputing must be put into perspective as being intentionally done onto our entire society and world [ All of Us ] by neglectful application of technology.

FOREVERMORE CRUEL AND UNUSUAL PUNISHMENT - Where's the 8th Amendment ??

You do not live under the laws of the United States of America. But the laws in all of this are not being observed.

We are not following - an observance of providence.

We are not operating in accordance with Natural Law

In such,

The hate that is in control of the law enforcement entrenched goals that is unyielding must be stopped.
